Re: Developmental Fisheries Board Member Application

Dear Ms. Kirchner,

This letter is being submitted in addition to my application form for the position available on the Oregon Developmental Fisheries Board. I have also attached a current resume outlining my participation in numerous fisheries during my career.

I have been a fisherman for over 20 years. The fishing industry is constantly changing due to economic, biological, regulatory, or other influences. A large part of adapting to these changes is searching out new opportunities and looking for a new niche. I have been fortunate to have worked for and alongside my father, Darrell Kapp, a fisheries pioneer who is always seeking out and developing new opportunities in the industry. He has either started or attempted to redesign fisheries on both coasts. During my career I have seen fisheries start, become sustainable, and sadly, sometimes fail to remain viable. These experiences make me an ideal candidate for the Developmental Fisheries Board. As a younger generation fisherman I have a long term interest at stake in the industry. Additionally, I am a current Purse Seine Vessel Owners Association board member as well as a member of the Port of Bellingham's Marina Advisory Committee so I have some experience in process and rules of order.

In closing, I hope that the fact that I reside in Washington does not make me undesirable as a candidate for this position. The vessels I own / operate are permitted in Oregon. I have been interested in this for some time and have applied in the past for this position. I feel that my experience and knowledge would be very beneficial to the Board. I have been a Developmental Permit holder for a number of years now and have no doubt that my ideas would be beneficial to the process. Proper development of fisheries is something that is very important to me and something that I would like to be a part of.

Please call me if you have any further questions.

Regards,

Ryan D. Kapp
