Longview Hills Fishing Club

NEWPORT OREGON

ODFW Fish & Wildlife Commission  
3406 Cherry Ave NE  
Salem, OR 97303-4924

May 16, 2011

Dear Commission Members,

On behalf of the entire Longview Hills Fishing Club membership, it is my intent and pleasure to apprise you of our very strong interest in supporting a proposal to memorialize the recent passing of Mrs. Tami Wagner, who was a dedicated member of your Newport ODFW Wildlife Staff.

Specifically, it is our understanding that your Commission is giving serious consideration to naming a beautiful elk wildlife habitat, which is located along the South Fork of the Yachats River, the TAMI WAGNER WILDLIFE AREA.

Our fishing club, last October, had the pleasure of working with Tami doing a very substantial Elk Habitat Enhancement Project at this area.

It was clear that she really loved this unbelievably beautiful place. Her love and enthusiasm for this very special area was very contagious to all of us who had the privilege and pleasure of being able to consider her a Special Friend of the Longview Hills Fishing Club.

Tami is no longer with us, but her exemplary ODFW professionalism and personal loving involvement with the stewardship and sustainability of our coastal wildlife would surely deserve your agency's serious consideration to memorialize Tami Wagner by officially naming this beautiful wildlife area on the South Fork of the Yachats River in her honor.

In closing, allow me to thank all of you for considering our interest in this important matter and for all that you do to watch over our Beautiful State of Oregon.

Sincerely,

A handwritten signature in black ink that reads "Wayne Hill". The signature is written in a cursive, flowing style.

Wayne Hill, President  
Longview Hills Fishing Club

CC: Dr. Douglas Cottam, District Wildlife Biologist
