Oregon Dungeness Crab Advisory Committee Meeting Agenda

Conference call
April 9, 2020 – 10am-12pm

1. Next steps under consideration for this season and for the Oregon Fish and Wildlife Commission crab exhibit
    - **Note:** The crab exhibit portion of the Oregon Fish and Wildlife Commission meeting on April 17 has been postponed, due to COVID response by the State. The meeting will be webinar only and will consist of informational briefings only. We are working to figure out how to reschedule this regulatory package with our commission. Our plans for next steps could include temporary rules that we may consider for implementation during this season (before September 1, 2020) to reduce whale entanglement risk (as originally intended). **PLEASE SHARE NEWS ABOUT THIS POSTPONEMENT AND THAT WE ARE WORKING ON NEXT STEPS** with your crab industry networks, as broadly as you can.

2. Tri-State meeting in May – discuss 24% opening and line marking

3. Science workshop in July

4. Conservation Plan development

5. Bioeconomic model report – now available
