Angling regulations might change before 100% of a quota is used, so check for inseason updates before heading out to fish.

These are groundfish species with a quota that ODFW is required to track and manage.

Greenlings include kelp greenling and rock greenling.

Minor nearshore rockfishes include China, copper, quillback, black-and-yellow, brown, calico, gopher, grass, kelp, olive, and treefish rockfishes.

Yelloweye rockfish retention is not allowed, but impacts still occur because some fish die after being released. Mortality rates vary by depth and whether or not a descending device was used.
