

Amended Attachment 5 – Exhibit F

Restoration and Enhancement

Project Summary Recommendations

RESTORATION AND ENHANCEMENT (R&E) PROJECT APPROVALS: PROJECT SUMMARIES AND RECOMMENDATIONS

2019-2021 Biennium – Cycle 3 of 7

The R&E Board met in Bend on September 6, 2019 to review three proposals. They recommended funding three of the project proposals. Four board member votes are required to pass a project funding recommendation; seven board members attended the meeting. This attachment includes a summary of the recommended projects and Board review.

Copies of applications are available on the R&E website
<https://nrimp.dfw.state.or.us/RE/>

The R&E Board recommends funding the following projects:

Restoration

No Restoration Projects

Enhancement

Project Summary

This bundle grant will improve three fisheries across the state (Junction City Pond, Metolius Pond, and Expo Ponds) to provide Oregonian's with a more accessible, enjoyable and consistent experience at these fishing parks.

Board Summary: Votes: 7Y, 0N

After discussion with the applicant about concerns regarding the improvements at Wilsonville Pond. The Board removed Wilsonville Pond and funded the project at a lower amount.

Project Number:	19-022
Project Title:	ODFW Fishing Facility Improvements Bundle 2019-21
Project Type:	Angler Access
Sponsor:	ODFW – Recreational Fisheries
Enhancement/Restoration:	Enhancement
Funds Recommended:	\$323,320
Other Funding:	\$128,750 (\$91,500 Jackson County Parks, \$20,000 USFWS, \$17,250 ODFW)
Total Project Cost:	\$452,070

Project Summary

This project supports development of a strategic roadmap for ODFW and its partners to maximize the value of investments in the conservation and enhancement of fish habitat. The project will develop data layers that are needed to identify locations where habitat conservation and/or enhancement actions will have the most benefit.

Board Summary: Votes: 5Y-2N

The Board and applicant had a lengthy discussion about how this project would be used, how it would actually be used, and how it would benefit anglers. Some members felt that there was not a strong tie to R&E or angler benefit and others were not convinced that it would be useful, while others thought it was a great project and would be beneficial to statewide planning.

Project Number:	19-023
Project Title:	Mapping Habitat Focus Areas
Project Type:	Fish Habitat
Sponsor:	ODFW – Water Quality and Quantity
Enhancement/Restoration:	Enhancement
Funds Recommended:	\$61,797
Other Funding:	\$ 374,759 ODFW - WQQ Program, REDD and Conservancy and Recovery
Total Project Cost:	\$ 436,556

Project Summary

The project includes replacement of the current ADA fishing / crabbing platform with a new ADA fishing / crabbing platform, and a multi-use float that will accommodate anglers and crabbers. Current facilities are in deteriorated condition.

Board Summary: Votes: 7Y-0N

After discussion about potential conflict between anglers and crabbers, the Board supported the project.

Project Number:	19-024
Project Title:	Port of Alsea Multi-Use ADA Platform / Float
Project Type:	Angler Access
Sponsor:	Port of Alsea
Enhancement/Restoration:	Enhancement
Funds Recommended:	\$100,000
Other Funding:	\$ 2,738,219 (\$2,400,000 Port of Alsea, \$162,500 Marine Board, \$162,500 USFWS-SFR, \$13,219 Lincoln County)
Total Project Cost:	\$ 2,838,219
