**Attachment 2**

**North Coast STAC** - The North Coast STAC territory includes all of the coastal basins extending from Neskowin Creek (Cascade Head) north to the Columbia River, and the lower Columbia River tributaries from the mouth up to Plympton Creek (Westport). Major stream basins include the Klaskanine, Youngs, Lewis and Clark, Necanicum, Nehalem, Kilchis, Wilson, Trask, Tillamook and Nestucca Rivers.

**Mid-Coast STAC** - The Mid-Coast STAC territory includes all of the central Oregon Coast basins from Salmon River south to the Coos County line just south of Reedsport. Major stream basins include the Salmon, Siletz, Yaquina, Alsea, Smith, lower Siuslaw, and lower Umpqua Rivers. This territory primarily includes Lincoln county, small western portions of Polk and Benton Counties that contain coastal basins, and western Lane and Douglas Counties from a north south line that roughly extends between Triangle Lake, Walton, and Elkton.

- The Northern representative will primarily represent the area from Yachats north.
- The Southern representative will primarily represent the area south of Yachats.

**Umpqua STAC** - The Umpqua STAC territory covers the entire Umpqua Basin above Elkton and extends from Diamond Lake in the Cascades west to Elkton. Major stream basins include Cow and Calapooya Creek, and the North Fork, South Fork and mainstem Umpqua River.

**Tenmile, Coos and Coquille STAC** - The Tenmile, Coos and Coquille STAC territory covers the Oregon Coast basins from the Eel/Tenmile Lake area south to Bandon. Major stream basins include the Tenmile Lake area, and the Millicoma, Coos and Coquille Rivers.

**Lower Rogue STAC** - The Lower Rogue STAC territory covers the southern Oregon Coast from Four Mile Creek near Bandon south to the California boarder. Major stream basins include the Sixes, Elk, Pistol and Chetco Rivers, the lower Illinois River and the lower mainstem of the Rogue River from the mouth upstream to Mule Creek.

**Upper Rogue STAC** - The Upper Rogue STAC territory covers all waters in the Rogue Basin upstream of the mainstem tributary of Mule Creek to the headwaters near Crater Lake. Major stream basins include the upper Illinois, Applegate and Rogue Rivers.

**North Willamette STAC** - The North Willamette STAC territory covers the lower Willamette basin including the Portland Metropolitan area. Major stream basins include the Clatskanie, Tualatin, Yamhill, Molalla/Pudding, Clackamas, Sandy and lower Willamette Rivers.

- The western representative will primarily represent the areas west of the Willamette River.
- The eastern representative will primarily represent the areas east of the Willamette River.

**Mid-Willamette STAC** - The Mid-Willamette STAC territory covers the mid-Willamette basin from Eugene north to Salem. Major stream basins include Rickreall Creek, and the North Santiam, South Santiam, Calapooia, Luckiamute, Marys, Long Tom and mainstem Willamette Rivers. West of I-5 this territory extends south to the Lane County line.

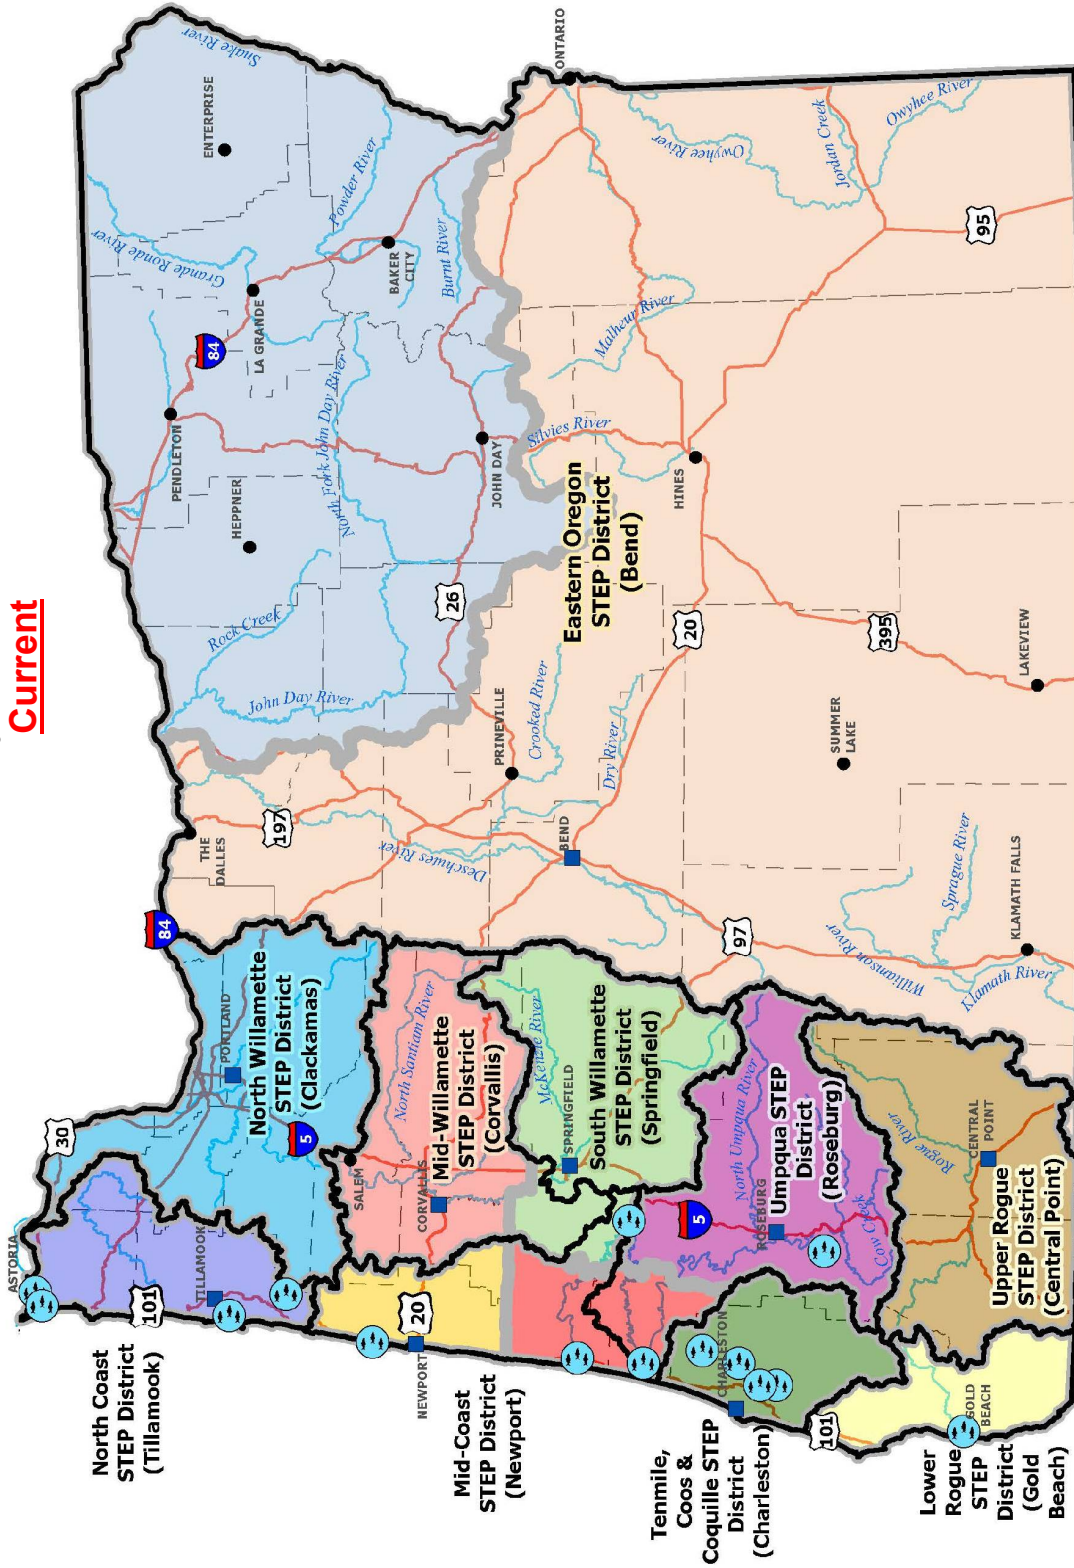

**South Willamette STAC** - The South Willamette STAC territory covers the headwaters of the Willamette (including the McKenzie, Middle Fork, and Coast Fork), the upper Siuslaw and upper Long Tom Rivers. To the west of I-5 this includes all of Lane County from a north south line that roughly extends through Triangle Lake and Walton.

**Eastern Oregon STAC** - The Eastern Oregon STAC territory covers the entire state east of the Cascades and includes 18 counties with nearly 67,000 square miles. Major stream basins include the Deschutes, Klamath, Chewaucan, Silvies, Donner and Blitzen, Malheur, Owyhee, John Day, Umatilla, Grande Ronde and Powder Rivers.

- The Northeastern representative will primarily represent Gilliam, Morrow, Wheeler, Grant, Umatilla, Union, Wallowa, and Baker Counties.
- The Central-Southeast representative will primarily represent Hood River, Wasco, Jefferson, Deschutes, Crook, Klamath, Lake, Harney, and Malheur Counties.
