

**Salmon and Trout Enhancement Program****2020 Proposed STEP Advisory Committee Territories****North Coast STAC**

The North Coast Representative will cover the ODFW North Coast Watershed and include:

- The North Coast District including all of the coastal basins extending from Neskowin Creek (Cascade Head) north to the Columbia River, and the lower Columbia River tributaries from the mouth up to Plympton Creek (Westport). Major stream basins include the Klaskanine, Youngs, Lewis and Clark, Necanicum, Nehalem, Kilchis, Wilson, Trask, Tillamook and Nestucca Rivers.
- The Mid-Coast District including all of the central Oregon Coast basins from Salmon River south to Siltcoos and Tahkenitch Lakes near Reedsport. Major stream basins include the Salmon, Siletz, Yaquina, Alsea and Siuslaw Rivers.

Umpqua STAC

The Umpqua Representative will cover the ODFW Umpqua Watershed and include:

- The Umpqua District covering the entire Umpqua Basin and extends from Diamond Lake in the Cascades west to the coast at Reedsport. Major stream basins include Cow and Calapooya Creek, and the North Fork, South Fork and mainstem Umpqua River.
- The Tenmile, Coos and Coquille STEP district covering the Oregon Coast basins from the Eel/Tenmile Lake area south to Bandon. Major stream basins include the Tenmile Lake area, and the Millicoma, Coos and Coquille Rivers.

Rogue STAC

The Rogue Representative will cover the ODFW Rogue Watershed and include:

- The Lower Rogue district covering the southern Oregon Coast from Four Mile Creek near Bandon south to the California boarder. Major stream basins include the Sixes, Elk, Pistol and Chetco Rivers, the lower Illinois River and the lower mainstem of the Rogue River from the mouth upstream to Mule Creek.
- The Upper Rogue district covering all waters in the Rogue Basin upstream of the mainstem tributary of Mule Creek to the headwaters near Crater Lake. Major stream basins include the upper Illinois, Applegate and Rogue Rivers.

North Willamette STAC

The North Willamette Representative will cover the ODFW North Willamette Watershed and include:

- The North Willamette district covering the lower Willamette basin including the Portland Metropolitan area. Major stream basins include the Clatskanie, Tualatin, Yamhill, Molalla/Pudding, Clackamas, Sandy and lower Willamette Rivers.

South Willamette STAC

The South Willamette Representative will cover the ODFW South Willamette Watershed and include:

- The Mid-Willamette district covering the mid-Willamette basin from Eugene north to Salem. Major stream basins include Rickreall Creek, and the North Santiam, South Santiam, Calapooia, Luckiamute, Marys, Long Tom and mainstem Willamette Rivers.
- The Upper Willamette district covering the headwaters of the Willamette River including the McKenzie, Middle Fork Willamette and Coast Fork Willamette Rivers.

Eastern Oregon STAC

The Eastern Oregon Representative will cover the ODFW East Region and include:

- The entire state east of the Cascades and includes 18 counties with nearly 67,000 square miles. Major stream basins include the Deschutes, Klamath, Chewaucan, Silvies, Donner and Blitzen, Malheur, Owyhee, John Day, Umatilla, Grande Ronde and Powder Rivers.

Statewide STAC

The Statewide Representative will cover the entire state and provide an opportunity for individuals who represent STEP partners, affiliated non-profits, or have a broader perspective or expertise relating to the implementation of STEP.

STEP Advisory Committee Territories
