**Public Correspondence Received as of
September 1, 2023**

August 31, 2023

Chair Wahl, Members of the Commission, Director Melcher,

I am profoundly disappointed in the Oregon Fish and Wildlife Commission for its efforts to circumvent its statutory authority and adopt rules to prohibit coyote contests. I have followed this issue through 3 Legislative sessions. As Legislative Chairman of the Oregon Hunters Association I have followed this issue closely for over 6 years. I've testified and watched as the Oregon Legislature wisely refused to adopt a statute to ban contests. The Legislature also did not approve a change in ODFW statutes or direct the Commission to take up this divisive issue that has almost nothing to do with coyotes. These comments today are my own, because I've had it with this nonsense and you need to understand why.

I say that because this issue is really about bullying by well organized animal rights organizations who seek to tell eastern Oregon citizens how to live. It has almost nothing to do with protecting coyotes, which could still be killed 24-7, every day of the year under the proposed bills and under this rulemaking. The only thing this rule does is say you can't have any fun doing so. Fishing derbies can kill fish for prizes, but coyote derbies can't. This is crazy. Bounties are paid for pike minnows, but heaven forbid you might win a raffle prize for coyote ears. Protected mammal contests are ok, but "unprotected mammal" contests are criminal! Please explain the consistency of the logic in that?

Nobody is forced to watch a coyote contest. Nobody is harmed by them (except the coyotes, which can still be killed all day long, but not for any fun). Entering a contest is a form of free speech, free association, which I believe is still protected by our Constitution. Legislative Counsel even opined that contests and having fun are likely protected activities, which gave the Legislature pause. To suggest that there is no economic impact from this rule is false. There was ample testimony before the Legislature in 2021 regarding the economic activity (lodging, meals, fuel, supplies, etc.) these contests generate in Burns during the winter months when business is especially slow. This rule will destroy that positive economic impact.

Encouraging the bullies by adopting this rulemaking won't stop them. There is only one word in the rule 635-050-0300 (1) "unprotected" that prevents this rule from banning all sorts of contests and competitions including big buck, big elk, Boone and Crocket, Pope and Young, etc. The animal rights groups really want to ban all trophy hunting, so if you adopt this rule you're encouraging them to step forward next time with a "simple amendment" to the rule so they can further erode hunting as we know it. These groups are relentless and bowing to their demands is saddening. Don't be bullied.

The commission clearly doesn't have the authority for these rules. Defining a "derby" as a manner of take is a leap that only a creative writing class in an alternative universe could devise to achieve an end that is not supported by clear statutory language. **"Chicanery"** definition: **"the use of sly or evasive language, reasoning, etc. to trick or deceive"**. This rulemaking fits the definition to a T. If the Oregon Legislature **intended** ODFW to regulate coyote contests they had 3 bills with which to do so, and they DID NOT. The drafters of this rule are twisting words in ways that lack clear authority.

Furthermore, this rule is sneaky. Denying the petition last December and then turning around in the same breath and directing to staff to draft a rule to do exactly what the petitioners wanted was bizarre to say it kindly. No advisory committee was used in drafting. Then the draft rule was only published in the SOS Bulletin, which is seldom read by your average citizen, and NO press release announcing an opportunity to comment. No engagement with local legislators. Why? Maybe so nobody will notice? Or maybe because its sneaky. And NO PUBLIC HEARING **in the area most impacted**, Harney County. Why? Afraid that it might not get any support in Burns? Imagine that.

"Manner of take" is the method and tools used. Time of day, season, type of weapon, caliber of cartridge, etc. all prescribe manner of taking and are supported by statutes. The **motivation or why** of taking is not "manner". The Legislature has never directed the ODFW to regulate "why" people hunt. When a coyote is taken, under current law, the hunter can do whatever they choose, take it home to skin, make paint brushes or dry flies or throw it on a dead pile. All fine and good. But entering it in a contest after it is taken suddenly becomes a crime? The coyote is dead no matter what. The Commission should have recognized its lack of authority last December and left this issue alone. The Legislature didn't touch it in 2023. If the Legislature choose not to regulate this, why does the commission think it has more authority than the Legislature? It does NOT. You should STOP.

There is no biological or scientific reason to adopt this rule. Coyote populations are doing more than well, just ask ranchers, or your own biologists. The rule has only one reason: bullying by elitist animal rights groups who don't approve of the lifestyle that some eastern Oregon residents have and insist on telling them how to live. Heaven forbid you should have any fun killing coyotes. But it's ok to kill coyotes anytime you want with any weapon you choose. So the commission isn't regulating that manner of take, except if you might win a prize, and for that you're now going to be a criminal.

The Oregon Hunters Association, of which I'm a member, has had low key raffle contests involving coyotes for many years. Open only to members, when they kill a coyote in the course of living in Lake or Klamath county, while protecting livestock or hunting casually for pleasure or pelts, they can exchange the ears for a raffle ticket. At the annual Christmas potluck, one lucky person is drawn for a prize. A road kill entry won a few years ago! Now ODFW is going to take away this small piece of camaraderie, free speech and free association that our members have enjoyed for years with no complaints because we're a private non-profit members only group. But your rule doesn't distinguish, even though the Legislature agreed to exempting us in the event any of the last 3 bills passed, but they died anyway. **At a minimum, you should amend this rule to exempt raffle contests held by non-profit, members only groups.**

Sadly, you will likely pass this deceitful and unlawful rule because you fear the bullies. They are very intimidating and relentless. Unfortunately, you are only feeding them another victory, and after a celebratory lap and some more fundraising they'll be back to get more of their agenda through at the expense of Oregon's hunters and anglers. Remember that word "unprotected". I'd guess that word will be the next target and then all forms of contests are gone. Just a simple amendment! If ODFW goes along with this type of chicanery to appease the bullies, there is no end to the mischief that will follow.

This is a very bad, unlawful exercise in rulemaking that lacks transparency and is a new low point for the use of sound biology and scientific data to support wildlife policy. I would be ashamed to ever write or consider adoption of a rule that lacked clear Legislative authority and direction.

Sincerely,

Paul Donheffner

Resident of Oregon

Dear Rules Coordinator Borisch,

As a rural family and an owner of livestock, I take issue with the Oregon Farm Bureau's pre-made comments which I'm supposed to swallow and regurgitate to the ODFW Commission review of "Coyote killing contest." If ODFW and the Wildlife Commission's mission is not meant to protect Oregon's wildlife, then what is their purpose? Nobody is trying to control "an individuals thoughts" by renaming the "Coyote derby" as a "taking"__ by definition, what is named "derby" is actually a slaughter of innocent life. If you don't think that blasting the life out of hundreds of foxes, coyotes and bobcats is a "manner of take," maybe we should apply these terms to some form of life you value. "Contest structures in and of themselves to do not kill animals"(???) is like saying that a victim of a lynch mob should not worry about the gathering crowd. The folks who have fixated forever on the "predatory animal" with poisons, traps and guns have only witnessed the increase of Coyote populations and the increase in predation on livestock. This is well documented in multiple, peer-reviewed, scientific studies.

Slaughter is not wildlife management. Learning a different way of working with Coyotes in the landscape is the door to a future in successful ranching. A little research is required. There are harmonious ways to live with Coyotes and enjoy their benefits to your ranch. They are America's Native Dog. Ranches that learn to live with Coyotes, rather than stay in "combat" mode, discover that they keep ground squirrel populations in check. Slaughtering Coyotes only leads to greater populations of them.

If we want to talk money and practical thinking, the largest sheep rancher in Idaho discovered that hiring night time watchers is more cost effective than "mitigation" payments. "Mitigation" is a term that has met its end. We mitigate for this and for that and soon will be out of anything to mitigate with.

Certainly, I don't believe that anyone at the Oregon Wildlife Commission is trying to restrict rural communities from "assembling in a social context." I would be happy to see lots of assemblies in rural communities if there was more enlightened, more ecological and researched thinking about predators rather than yearly pictures of pickups full of dead animals. We can't kill the entire state of wildlife in order to raise meat. If Washington, Colorado, California and Arizona ranchers can survive without destroying their entire state's wildlife, Oregon can too.

Along with the term "mitigation", I am tired of constant calls for compensation for livestock loss. I don't need a hand out to run my business. The real "prize" should be awarded to ranchers who have figured it out.

Sincerely,

Susan Strauss

Dear Oregon Department of Fish and Wildlife commissioners,

As an Oregon resident, I care deeply about preventing cruelty to animals and supporting environmental protection efforts.

I am aware that Oregon is considering a ban on coyote killing contests, cruel and gruesome events in which competitors kill as many coyotes as possible during a specified time period for cash and other prizes.

I strongly support this effort, and I hope that you will accept the proposed petition to ban coyote killing contests.

By joining eight other U.S. states that have already banned these inhumane events, Oregon will continue to be a leader in animal and environmental protection.

Thank you for your consideration.

Sincerely,
karen Wible

RE: Proposed rule that define "Derby" as a manner of "Take"

8/30/2023

ODFW
Attn: Roxann Borisch

This proposed "rule" affects rural communities that have large agriculture bases. These communities have small towns and small businesses that reap the economic benefits of out of town/community influx during any event that is offered. These coyote derbys are welcomed by the communities. There are supple amounts of coyotes and ranchers are calving or lambing in this time frame. As you should know, coyotes are resilient and repopulate easily.

I believe this is a backdoor attempt to make a law that should be done in the legislature or at the ballot. ODFW should be managing the wildlife & their habitat. This does not affect the wildlife or their habitat. Whether there is a "derby" or not, coyotes will be hunted by not only ranchers but sportsmen and other hunters. Coyotes are varmints and do not even require tags, as should be always. They will eat a newborn lamb or calf as it is being birthed, not to mention the countless dogs & cats they kill.

Please concentrate on the duties at hand, wildlife & habitat that need your management.

I do not agree that ODFW should have the authority (my understanding is they do not presently) to manage Predatory animals. This is clearly under the control of the ODA. If this is something that is needed it should be taken up by the Legislature. This has been tried before (through the Legislature) and has not been successful. The ODFW Commission should be concerned about other issues regarding their mission and not try and get involved with this issue.

Thank you,

Ron Hjort

Re: Comments of Harney County Court on the Oregon Fish and Wildlife Commission's Proposed Rules Regarding Derby Prohibition for Taking Unprotected Mammals.

On behalf of the Harney County Court ("Harney County"), please accept the following comments on the Oregon Fish and Wildlife Commission's ("FWC") proposed "Derby Prohibition for Taking Unprotected Mammals" regulations ("Derby Rules"). For the reasons provided herein Harney County urges FWC not to adopt these proposed rules.

I. INTRODUCTION

The North American model for conservation is built upon the pursuit of native North American species. This pursuit has inspired generations of persons to protect the United States' prized wildlife, seeking to establish balances between hunting opportunity, wildlife population health, and farming and ranching interests.

Inspiring generations of sportsmen is vital to the success of the North American model. Motivating persons to participate in hunting and conservation takes many forms. For instance, the Boone and Crockett Club records trophy wildlife as examples of the specimens North America is capable of producing, to encourage hunting and continued conservation, promote science, and fair chase sportsmanship. *See, e.g., About the Boone and Crockett Club*, <https://www.boone-crockett.org/about-boone-and-crockett-club-1887>. The Pope and Young Club has similar goals. *See, e.g., Pope and Young Club*, <https://pope-young.org/Preserve-Promote-Protect->.

Beyond these very prominent clubs, localized organizations and/or events also promote competition with the aim of promoting conservation and recruiting sportsmen. *See Head and Horns Competition*, Pacific Northwest Sportsmen's Show <https://www.thesportshows.com/shows/pacific-northwest/show-information/head-horns/>. Other contests similarly promote conservation and wildlife balance. For instance, coyote contests recruit persons to pursue and hunt coyotes, which can lead to great improvements in other wildlife populations. Similarly, contests for other unprotected mammals, like nutria, encourage persons to harvest these wildlife in an effort to bring balance between wildlife and agriculture. The purpose

of these contests is not to promote the casual killing of wildlife, but is rooted in conservation and the North American model, ensuring that current and future generations always have wildlife and wild places.

Private land owners, farms, and ranches are also critical to the North American model's conservation efforts. Often in conflict, conservation interests must be palatable to private landowners to be successful. The killing of livestock by predator species, or the destruction of crops by other wildlife, causes great economic pain to land stewards, who rely on the land to make a living, caring for the land to ensure future productivity and prosperity. Without allowing landowners, farmers, or ranchers to make efforts to balance both their economic livelihood and the conservation of species, any interest in conservation wanes, harming wildlife species. Without private landowner, farmer, or rancher participation, the success of the North American model—and conservation as a whole—deteriorates.

The FWC's expansive proposed "Derby Prohibition for Taking Unprotected Mammals" would eliminate a very important avenue for promoting conservation and balance among different land uses—competition in the taking of wildlife. Ultimately, the proposed rules create a prohibition on competitions which encourage balance between wildlife species or between wildlife species and agriculture (such as coyote contests or nutria contests) while also eliminating a driving motivator for sportsmen.

The FWC ignores the sweeping impacts of the proposed Derby Rules, departing not just from the text, context, and intent of governing statutes, but from the North American model entirely. For these reasons Harney County respectfully urges the FWC not to adopt the proposed Derby Rules.

II. LEGAL BACKGROUND

The focus of statutory construction inquiries is what the legislature intended when the statute was enacted. *Holcomb v. Sunderland*, 321 Or. 99, 105, 894 P.2d 457, 460 (1995) (citing *DeFazio v. WPPSS*, 296 Or. 550, 561, 679 P.2d 1316 (1984)). The Oregon Supreme Court articulated an analytical framework for statutory construction in *Portland Gen. Elec. Co. v. Bureau of Lab. & Indus.*, 317 Or. 606, 610–12, 859 P.2d 1143, 1146 (1993) (hereinafter *PGE*); Hon. Jack Landau, Villella, Anne & Johansen, Steve, *Interpreting Oregon Law, Statutory Interpretation: Overview of General Principles*, §1.5 (2009). ORS 174.020 statutorily modified the *PGE* framework. *State v. Gaines*, 346 Or. 160, 165, 206 P.3d 1042, 1047 (2009). A statutory construction inquiry requires an evaluation of the text, context, and legislative history of a statute to determine what the legislature intended. *Id.* at 171–172. Statutory text refers to the actual words of the statute. *See PGE*, 317 Or. at 610. Oregon courts sometimes turn to the common dictionary definitions of words or phrases when no definition is provided by the statute. *See Woodbury v. CH2M Hill, Inc.*, 335 Or. 154, 161, 61 P.3d 918, 922 (2003). Context, meanwhile, refers to other provisions of the same statute and related statutes. *PGE*, 317 Or. at 611; *see also State v. Stamper*, 197 Or. App. 413, 417–18, 106 P.3d 172, 174 (2005); *State v. Betts*, 235 Or. 127, 137–38, 384 P.2d 198, 204 (1963); *Daly v. Horsefly Irr. Dist.*, 143 Or. 441, 445, 21 P.2d 787, 789 (1933).

ORS 496.162(1)(a) grants the FWC the authority to “[p]rescribe the times, places and manner in which wildlife may be taken.” The dictionary definition of “manner” is “the way in which something is done.” *Manner*, Cambridge Dictionary, <https://dictionary.cambridge.org/us/dictionary/english/manner>. Read in context with the reference to “times” and “places” in ORS 496.162(1)(a), the statute gives FWC the authority to regulate when, where, and the way in which (or “how”) wildlife may be taken—but not the motivation for engaging in the activity of “taking.”

III. PROHIBITING “DERBIES” IS BEYOND THE FWC’S STATUTORY AUTHORITY

As stated above, the FWC has the statutory authority to regulate the when, where, and how of taking wildlife. However, the proposed Derby Rules regulate none of these three considerations. Instead, they propose to regulate the *why* of taking wildlife—i.e., FWC is proposing to regulate persons’ subjective motivations behind their pursuit of wildlife. FWC’s prior regulations of the manner of take (traps, bait, artificial light, and drones) demonstrates an understanding that regulating subjective motivations is outside the authority granted by ORS 496.162(1)(a). Each of FWC’s prior regulations of “manner” of take is limited to *how* animals are taken without delving into *why* a take occurs.

Specific to predatory animals, which includes coyotes (*see* ORS 610.002), the context of ORS 496.162(1)(a) further demonstrates that FWC’s proposed Derby Rules exceed their statutory authority. A general policy limiting FWC’s authority to regulate the take of predatory animals is reflected in numerous places in Oregon statutes. *See* ORS 496.162(3); ORS 497.071; ORS 610.002 et seq. Therefore, both the text and context of ORS 496.162(1)(a) reveal that regulating the subjective motivations behind the pursuit or take of a coyote exceeds FWC’s legal authority. Legislative history does the same. In the legislative history of 1975 HB 2511, which authorized FWC to regulate the when, where, and how of taking predatory animals, the FWC explicitly stated:

Now therefore be it known that the Oregon Wildlife Commission has no intention of promulgating regulations for protection of predatory animals as defined in ORS 610.002 for any purpose other than providing orderly, equitable and enforceable regulations for the taking of antelope, deer, elk, mountain sheep and mountain goats. It is further understood that the right of a landowner to take predatory animals under the provisions of ORS 610.105 would not be affected by such rules.

Exhibit 1 at 6. During debate and consideration of 1975 HB 2511 the Oregon Department of Agriculture supported the bill, explaining that the only reason for modification of the predatory animal statutes is because individuals intending to spotlight other wildlife species may have tried to pass off their unlawful actions as a legal manner of predator hunting. Exhibit 2 at 4.

With this text, context, and legislative history it is clear that nothing in the FWC’s governing statutes allows the State to prohibit the *why* of taking wildlife. Persons’ subjective motivations for hunting should be left unscathed, and the proposed Derby Rules should be rejected.

IV. PROHIBITING “DERBIES” IS BAD POLICY

Conservation impacts appear in the Derby Rules’ effect on predator or small-mammal hunting competitions. The promotion of predator hunting through competitions encourages people to take serious looks at striking better balance between various wildlife populations. The immediate effect of predator hunting is, of course, lower predator populations. In parts of Oregon, such as Harney County where mule deer populations are reaching critically-low levels, lower predator populations—even if not sustained over a long term—are vital to better fawn recruitment now. See Jacob Tyler Hall, *Survival of Neonate Mule Deer Fawns in Southern Utah: Effects of Coyote Removal and Synchrony of Parturition*, Brigham Young University (April 1, 2018) <https://scholarsarchive.byu.edu/cgi/viewcontent.cgi?article=7745&context=etd> (“Our results indicated that coyote control can decrease mortality and increase survival of neonate mule deer in some situations. Removal of coyotes was most effective when removal efforts occurred for multiple consecutive years, and when control efforts occurred in or near fawning habitat.”). Similarly, these competitions help strike balances between agriculture and wildlife. In the predator context, these contests are efficient ways of mobilizing groups of persons to address predators in areas where they are posing problems to livestock, such as sheep, goats, or cattle.

The proposed Derby Rules reject the idea that motivating persons to harvest unprotected mammals has any conservation value. But the FWC does not seriously take a hard look at this issue. Instead, based on no science whatsoever, the FWC rejects the notion that unprotected mammal competitions may be a cost effective, efficient way of bringing balance to wildlife populations. The FWC should not be so quick to reach its conclusion. Where some of the State’s legacy wildlife populations, like mule deer, have collapsed, the FWC should not eliminate avenues for bringing better balance between wildlife species.

V. THE DERBY RULES WILL HARM HARNEY COUNTY

Harney County is at great risk of suffering substantial harm from these rules. Harney County is very remote. The agricultural and recreation industry are critical in the County. Both of these will be harmed by the proposed Derby Rules.

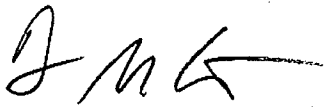

Explained in the preceding section, wildlife hunting competitions can be used—and are used—to promote balance between wildlife and agriculture. Unprotected mammals which can have massive impacts on agriculture products (e.g., livestock or crops) can be effectively addressed by using competitions to increase hunter interest in the pursuit of those wildlife species. The proposed Derby Rules prohibits this in a fashion which would eliminate a key motivator for many hunters. Moreover, even private landowners, farmers, and ranchers could find themselves in the crosshairs of the Derby Rules where a landowners’ incentives for the taking of any wildlife falls within the definition of a “derby.” In the predatory animal context, this would violate landowners’ statutory rights to address predatory animals. While the Derby Rules try to provide some (very ambiguous) exception to private landowners, ranchers grazing livestock on federal grazing leases could still find themselves in violation of the Derby Rules if ever they used *any* “incentive” to promote the taking of wildlife threatening their livestock.

Moreover, Harney County's recreation industry would be threatened by these proposed rules. Harney County is home to historically-world-class hunting opportunities, particularly mule deer, sheep, and antelope hunting, but interest in these opportunities could wane as populations suffer collapses. Ultimately, these Derby Rules eliminate a tool to control predator populations which are having outsized impacts on these prey species. The proposed rules turn a blind eye to the benefits of derbies and hunter recruitment in a manner violating the FWC's statutory responsibilities. Therefore, Harney County strongly urges the FWC to reject the proposed Derby Rules.

VI. CONCLUSION

For the reasons provided herein Harney County strongly urges the Oregon Fish and Wildlife Commission not to adopt the proposed "Derby Prohibition for Taking Unprotected Mammals" rules.

Sincerely,

Dominic M. Carollo
County Counsel for Harney County

STATEMENT ON HOUSE BILL 2511

by

Oregon Wildlife Commission

Relating to publishing Wildlife Commission rule changes.

The Oregon Wildlife Commission favors passage of House Bill 2511 for the following reasons.

Recodification of the wildlife laws by act of the 1973 Legislature retained the provision in ORS 496.162 requiring that an amended or rescinded rule be published in at least two newspapers of statewide circulation. The 1973 Legislature also revised the Administrative Procedure Act relating to rule making and such revisions were incorporated in the Attorney General's Model Rules which became effective October 5, 1973.

The Wildlife Commission has adopted and now follows the Model Rules which apply uniformly to all regulatory agencies. Those rules specify the procedures to be followed in publishing a notice of rule making and filing the action with the Secretary of State. Such procedures assure that the public is adequately informed, thus precluding the need to publish findings in the classified sections of two newspapers.

Amending ORS 496.162 to delete the publication requirement would save the unnecessary expense of advertising rule changes without affecting the Wildlife Commission's responsibility to follow the Attorney General's Model Rules. Passage of House Bill 2511 would accomplish those objectives.

APR 11 1975

H. AG. & NAT. RES. COM.

OREGON STATE ARCHIVES

Legislative Counsel

PROPOSED AMENDMENTS TO HOUSE BILL 2511

In line 2 of the printed bill, delete "establishing seasons, amounts and manner of taking".

In line 3, after "496.162" insert ", 498.146 and 610.060".

After line 33, insert:

"(3) Notwithstanding subsections (1) and (2) of this section, except during those times and at those places prescribed by the commission for the hunting of deer, elk or antelope, the commission shall not prescribe limitations on the times, places or amounts for the taking of predatory animals. As used in this subsection, 'predatory animal' has the meaning for that term provided in ORS 610.002.

"Section 2. ORS 498.146 is amended to read:

"498.146. (1) No person shall cast from a motor vehicle or from within 500 feet of a motor vehicle an artificial light upon any game mammal , predatory animal or livestock while there is in his possession or in his immediate physical presence a weapon with which the game mammal , predatory animal or livestock could killed.

APR 11 1975

H. AG. & NAT. RES. COM.

OREGON STATE ARCHIVES

"(2) Subsection (1) of this section does not apply to a person who casts artificial light upon a game mammal, predatory animal or livestock:

"(a) From the headlights of a motor vehicle that is being operated on a road in the usual manner, if that person makes no attempt to kill the game mammal or livestock; or

"(b) When the weapon that person has in his possession or immediate physical presence is disassembled or stored, or in the trunk or storage compartment of a motor vehicle; or

"(c) On land owned or lawfully occupied by that person; or

"(d) On publicly owned land when that person has an agreement with the public body to use that property.

"(3) As used in this section, 'predatory animal' has the meaning for that term provided in ORS 610.002.

"Section 3. ORS 610.060 is amended to read:

"610.060. Nothing in the wildlife laws is intended to [affect the provisions of ORS 610.002 to 610.990, nor to] deny the right of any person to control predatory animals as [defined] provided in ORS [610.002] 610.105.".

On page 3, line 1, delete "2" and insert "4".

Proposed Committee Amendments

HB 2511

4/4/75 -- Page 2

STATEMENT ON HOUSE BILL 2511

by

Oregon Wildlife Commission

The original House Bill 2511 contained the material included in lines 5 through 33 of page 2 of the engrossed bill as well as the emergency clause in lines 30 through 32 on page 3. The amendment at the bottom of page 2 deletes the provision in ORS 496.162 that an amended or rescinded rule of the wildlife commission "shall be published prior to the effective date thereof in at least two newspapers of general circulation throughout the state".

Following the 1973 session of the Legislature, at which time the Administrative Procedures Act was changed substantially, the Wildlife Commission adopted the Attorney General's Model Rules of Practice and Procedure which became effective on October 5, 1973. These rules spell out the manner in which a state agency shall give notice of intent to adopt, amend or rescind a rule and the manner in which the action is to be publicized. The procedures assure that the public is adequately informed, precluding the need to advertize the findings in the classified sections of two newspapers. Deletion of the subsection from ORS 496.162 will in no way affect the Commission's responsibility to abide by the Administrative Procedures Act and the Model Rules of the Attorney General.

The additional changes incorporated in Engrossed House Bill 2511 are found on lines 1 through 29 of page 3. A new subsection (3) of ORS 496.162 limits the Commission's authority to prescribe restrictions on the hunting of predatory animals to the times and places for lawful hunting of deer, elk or antelope. Where it is deemed necessary, this will permit the Commission to close an area for relatively brief periods of time to all other kinds of hunting. This will prove particularly effective during certain elk seasons.

The amendments to ORS 498.146 in Section 2 on page 3 strengthen the spotlighting law enacted in the 1973 session. The amendments fill a loophole whereby an individual could claim that he was shining a light on a coyote, for example, rather than a game mammal. The exceptions to the spotlighting law, including a landowner on his own land, remain unchanged. The changes proposed to ORS 498.146 will materially aid law enforcement and will be beneficial to the livestock industry.

The amendments to ORS 610.060 contained in Section 3 near the bottom of page 3 are necessary to effectuate the previously discussed changes on page 3. The right of any person owning, leasing, occupying, possessing or having charge of any land to control predatory animals, as spelled out in ORS 610.105, remains unchanged.

These amendments have been worked out in cooperation with representatives of the livestock industry, Oregon State Police and State Department of Agriculture. The Wildlife Commission respectfully requests a do-pass recommendation on Engrossed House Bill 2511.

Dear Gene:

Last Friday I advised the members of the Wildlife Commission of the expressed concern of some livestock people about the amendments of HB 2511 which would permit the Wildlife Commission to regulate the taking of predatory animals during authorized deer, elk and antelope seasons.

In response to that concern, the Commission endorsed the enclosed declaration of intent which may be useful in alleviating that concern.

Your consideration in calling this matter to my attention is appreciated.

Sincerely yours,

RECEIVED
ADMINISTRATION
MAY 6 1975
STATE DEPARTMENT
OF AGRICULTURE

Oregon Wildlife Commission

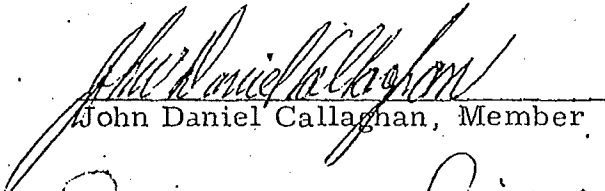

Policy Statement Relating to
Protection of Predatory Animals

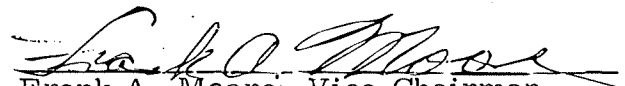

Whereas the Oregon Legislature through House Bill 2511 is considering amendment of ORS 498.162 which would permit the Wildlife Commission to regulate the taking of predatory animals during authorized antelope, deer, and elk seasons, in order to provide orderly and equitable big game hunting opportunities, and

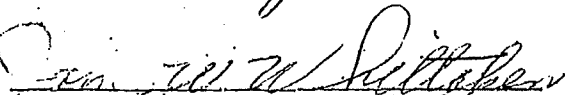

Whereas there is some concern that the amended law might be applied to protect or increase the production of predatory animals,

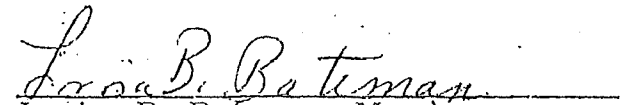

Now therefore be it known that the Oregon Wildlife Commission has no intention of promulgating regulations for protection of predatory animals as defined in ORS 610.002 for any purpose other than providing orderly, equitable and enforceable regulations for the taking of antelope, deer, elk, mountain sheep and mountain goats. It is further understood that the right of a landowner to take predatory animals under the provisions of ORS 610.105 would not be affected by such rules.

Tape 1294

Charolett Corkran, appeared in opposition to H.B. 2908

Ms. Corkran representing the Oregon environmental Council and Sierra Club, stated that her organizations realized the need for a better program to protect our livestock from the depredation of wild and feral animals, they do not feel that H.B. 2908 would accomplish that because it has been proven that a bounty system does not work.

She further stated that she had read in a Wildlife Services report that they stated that the coyote population explosion has already peaked in some areas. One of the reasons for this is the fact that the litters have decreased in size. She further stated that there has been a meeting of the minds between environmentalist and the State Department of Agriculture on the use of M-44's for selective coyote control.

Tape 1330

Mr. Al Miller appeared in opposition to H.B. 2908

Mr. Miller reading from a book read statements that the bounty system does not work.

Tape 1475

H.B. 2511

Bob Holloway, Oregon Wildlife Commission, appeared in support of H.B. 2511.

Mr. Holloway testified that the Commission would like to adopt this rule. This would enable them to delete the provision that when a rule of the Wildlife Commission is amended or rescinded, the amended or rescinded rule must be published in at least two newspapers of general circulation throughout the state prior to the effective date.

Mr. Holloway stated that this would save the department around \$3,000.

Representative Peck moved that H.B. 2511 be sent to the floor with a do pass. Representative Davis stated that he would prefer to work on it during a work session before he voted on it. Representative Jones seconded the motion. A Roll call vote was taken. Those voting in favor of the motion were Representative Jones, Hanneman, Peck and Rijken. Those opposed were Representatives: Davis, Gilmour, and Johnson. Representative Byers was excused; Representative Wyatt was absent. The motion failed.

April 11, 1975

Representative Gilmour moved that the committee adopt these amendments. Representative Jones seconded the motion.

Under discussion Mr. Henry Pavelek, Oregon N. W. Steelheaders Council of Trout Unlimited stated that his group supports the proposed amendments to H.B. 2042 which would exclude commercial marinas and boat ramps from the leasing arrangements with the Division of State Lands.

They also proposed that the Oregon Revised Statutes be revised to prohibit the sale or trading of any submersible lands by the Division of State Lands, by omitting the words "sale and/or trade" wherever they occur within the statutes.

A roll call vote was taken. Those voting Aye were Representatives: Davis, Gilmour, Johnson, C., Jones, Vice Chairman Hanneman, Peck, Rijken and Wyatt. Chairman Byers was excused. The motion passed.

Representative Wyatt moved that H.B. 2042 be sent to Ways and Means; Representative Gilmour seconded the motion. A roll call vote was taken. Those voting in favor of the motion were Representatives: Davis, Gilmour, C. Johnson, Jones, Vice Chairman Hanneman, Peck, Rijken, and Wyatt. Chairman Byers was excused. The motion passed. Vice Chairman suggested that the bill be engrossed.

H.B. 2511

Tape 1015

Representative Jones stated that there was objection to the original bill. Representative Jones went on to say that these amendments support the State Police and their attempts to manage and protect our wildlife. Representative Jones stated that he had conferred with Captain Hershey, Mr. Kunkle and Mr. Holloway about these amendments. Please see exhibit C.

Mr. Richards Wyman stated that it was his opinion that these changes are necessary and that right now there is a large loop hole in arresting a hunter that is spot-lighting.

Paul Fisher stated that he supported the amendments and the bill.

Representative Jones moved that the committee amend H.B. 2511 to include the amendments presented today. Representative Johnson seconded the motion. A roll call vote was taken. Those voting in favor of the motion were Representatives: Davis, Gilmour, C. Johnson, Jones, Vice Chairman Hanneman, Peck, Rijken, Wyatt. Chairman Byers was excused. The motion passed.

April 11, 1975

Representative Jones moved that H.B. 2511 be passed to Floor as amended. Representative Johnson seconded the motion. A roll call vote was taken. Those voting in favor of the motion were Representatives: Davis, Gilmour, C. Johnson, Jones, Vice Chairman Hanneman, Peck and Wyatt. Chairman Byers was excused. The motion passed. Representative Jones was asked to carry this bill.

Representative Davis gave a committee report on H.B. 2151, he stated that the sub-committee thought it best at this time to table H.B. 2151 and to study it during a Interim Committee.

Representative Gilmour moved that the committee table H.B. 2151. Representative Davis seconded the motion. A roll call vote was taken. Those voting in favor of the motion were Representatives: Davis, Gilmour, C. Johnson, Jones, Vice Chairman Hanneman, Peck, Rijken, and Wyatt. Chairman Byers was excused. The motion passed.

H.B. 2689

Tape 1163

Mr. Boyd Kramer Souther Oregon Director for the Northwest Steelheaders, Council of Trout Unlimited.

Mr. Kramer appeared in opposition to H.B. 2689

Mr. Kramer reading from a prepared statement stated that if this measure were to be enacted it would allow commercial fisherman to net bait foodfish up to one mile into the river's mouth and this would deplete the stocks of young salmon and steelhead that are going to sea to begin their ocean life cycle.

In essence, Mr. Kramer stated, the sportsmen are subsidizing through license fees the commercial fishery with baitfish, namely the salmon and steelhead smolts, and this isn't the intent of their original planting.

Mr. Kramer urged that this committee consider all the information before deciding on this measure. He stated that he has confirmed the data in his prepared statement (please see exhibit D).

Tape 1247

Representative Gilmour moved that the meeting be adjourned, a voice vote was taken. The motion passed.

Meeting was adjourned,

Respectfully submitted,

Gloria Bird
Committee Clerk

SENATE COMMITTEE ON AGRICULTURE
AND NATURAL RESOURCES

May 5, 1975

8:09 A.M.

309 Capitol Bldg.

Members Present: Senator John Powell, Vice Chairman
Senator Charles Hanlon
Senator Ken Jernstedt
Senator Betty Roberts
Senator Cliff Trow

Excused for other
Business of the
Senate:

Senator Mike Thorne, Chairman
Senator Lenn Hannon

Witnesses:

Bob Holloway, Oregon Wildlife Commission
Gene Kunkle, Department of Agriculture
Donald Ostensoe, Oregon Cattlemen's Association
Dave Nelson, Oregon Farm Bureau Federation and

Representative Dick Magruder
Jerry Herbert
Dr. Glenn Rea, Department of Agriculture

Vice Chairman Powell called the meeting to order at 8:09 a.m.
and opened the hearing on HB 2511.

A-Eng. HB 2511 - Relating to wildlife

Bob Holloway, representing the Oregon Wildlife Commission, read a prepared statement in support of A-Eng. HB 2511. This statement has been marked "Exhibit A", attached hereto and by this reference made a part hereof. He stated the additional changes incorporated in A-Eng. HB 2511 are found on lines 1 through 29 on page 3 of the bill. A new subsection 3, at the top of page 3, of ORS 496.162 limits the commission's authority to prescribe restrictions on the hunting of predatory animals to the time and places for lawful hunting of deer, elk or antelope where it is deemed necessary. This will permit the commission to close an area for relatively brief periods of time to all other kinds of hunting. This will prove particularly effective during certain elk seasons.

Gene Kunkle, representing the Department of Agriculture, appeared in support of A-Eng. HB 2511. He stated the only reason 610 is being modified in HB 2511 is because an individual may be shining a light on an animal at night, the State Police approaches him, and he says he is hunting a predatory animal. They can't really enforce the spotlighting provision and that is the sole reason why 610 is being modified in HB 2511. They support the bill because they believe it will tend to reduce the unlawful killing of livestock, particularly at times by shooting and perhaps by the use of spotlights as well. Some livestock interests have indicated a concern, however, allowing the

(commission to regulate predatory animals under any circumstances and for that reason the commission adopted on April 18 a policy statement. He read the resolution part of that statement. It has been marked "Exhibit B", attached hereto and by this reference made a part hereof.

HB 3104 - Relating to brands and marks

Gene Kunkle, representing the Department of Agriculture, appeared in support of HB 3104. He stated it would provide an optional method for brand inspection of cattle in the feed lots. Presently cattle inspected out of the feed lots after a feeding period, many times the animals are grade and the operators and feed lot owners don't like to have them placed in a squeeze shoot. This bill would provide that a feeder may license a particular feed lot so that all cattle are inspected into the feed lot and then only out by inventory control methods. They think the bill contains adequate safeguards so that only those cattle owned by that particular feeder will be marketed.

Donald Ostensoe, representing the 3,500 member Oregon Cattlemen's Association, stated they have gone on record as endorsing this bill and are in favor of it.

(Dave Nelson, representing the 8,000 member Oregon Farm Bureau Federation, stated he is here to support HB 3104.

MOTION: Senator Hanlon moved that HB 3104 be sent to the Floor with a DO PASS recommendation.

The clerk called the roll with Senators Hanlon, Jernstedt, Trow and Powell voting AYE. Senators Hannon, B. Roberts and Thorne were excused. Vice Chairman Powell declared the motion CARRIED.

Senator Hanlon will lead discussion on the Floor.

A-Eng. HB 2511 - Relating to wildlife

MOTION: Senator Jernstedt moved that A-Eng. HB 2511 be sent to the Floor with a DO PASS recommendation.

The clerk called the roll with Senators Hanlon, Jernstedt, Trow and Powell voting AYE. Senators Hannon, B. Roberts and Thorne were excused. Vice Chairman Powell declared the motion CARRIED.

Senator Powell will lead discussion on the Floor.

A- Eng. HB 3143 - Relating to Agriculture

(Representative Dick Magruder introduced Mr. Jerry Herbert, Manager of the Northwest Livestock PCA and Donald Ostensoe of the Oregon Beef Council and the Oregon Cattlemen's Association. He stated in his judgment it is probably the most important piece of legislation that affects the livestock industry that has been pro-

{ trol board to be created either by petition or determination by the County Board of Commissioners. They have had a few cases where petition of 50 goat and livestock owners were utilized to create a dog control board. Unfortunately the provisions in the statutes do not relate to how we resolve them or how we control them. They have had these boards exist and there is no way to get a handle on it from the County Board of Commissioners. The primary example is in Coos County where they had a dog control board that now does what they pretty much please and there is no way the county board of commissioners can possibly do anything about it. This bill would eliminate those boards and prevent the creation by the 50 livestock and goat owners of future dog control boards. He thinks the provision was put in the law some time ago when the primary problem with dog control was that of livestock. Although that is still a primary concern most counties have dog control programs that are more broad than just that of livestock killings. It talks about rabies and many other programs. To his knowledge there is no opposition to this bill.

MOTION: Chairman Thorne moved that HB 2990 be sent to the Floor with a DO PASS recommendation.

{ The clerk called the roll with Senators Hannon, Powell, Trow and Chairman Thorne voting AYE. Senators Hanlon, Jernstedt and B. Roberts were excused. Chairman Thorne declared the motion CARRIED.

Senator Hannon will lead discussion on the Floor.

A-Eng. HB 2511 - Relating to wildlife

Chairman Thorne called the committee's attention to the proposed amendments to A-Eng. HB 2511.

Richard Wyman, Administrative Assistant to the House Committee on Agriculture and Natural Resources, explained the proposed amendments. The reference to the statute 498.146 is a reference to the statute which is being amended by Section 2 of the A-Engrossed bill which inserts predatory animal along with game animals and livestock and prohibits a person from casting a light from a motor vehicle on any of those three categories of animals within 500 feet of their vehicle. Section 3 on page 3 is a section which limits the regulatory authority of the Wildlife Commission over predators. It limits them to only regulating the times, places and amounts for taking predator animals in the case of 498.146 which is taking them by spot light within 500 feet of your car. It also provides that they may regulate the taking of predators during elk season.

{ Chairman Thorne asked the committee to note the deletion of the words "deer" "or antelope". So we are speaking specifically and that means when you are hunting elk you have to have a tag.

MOTION: Chairman Thorne asked if there were any objections to the proposed amendments to A-Eng. HB 2511.

There were no objections to the adoption of the proposed amendments and Chairman Thorne declared the amendments ADOPTED. Senators Hanlon, Jernstedt and B. Roberts were excused.

MOTION: Chairman Thorne moved that A-Eng. HB 2511, as amended, be sent to the Floor with a DO PASS recommendation.

The clerk called the roll with Senators Hannon, Jernstedt, Powell, Trow and Chairman Thorne voting AYE. Senators Hanlon and B. Roberts were excused. Chairman Thorne declared the motion CARRIED.

Senator Powell will lead discussion on the Floor.

A-Eng.

HB 3215 W/House Amendments - Relating to marks and brands

Chairman Thorne advised the committee the proposed amendments to HB 3215 relate to Section 6 of the bill. We leave the rerecording provisions alone and by virtue of the amendments, the first amendment to subsection (3) we basically allow the department to set a fee not to exceed \$50 for the first recording of a brand. The members felt the initial fee should be strong enough so a person taking out a brand is not doing it to just brand a fence post someplace or a mail box and that is apparently what was happening. Once you have the brand the fee for rerecording and procedure is the same.

MOTION: Chairman Thorne asked if there were any objections to the adoption of the proposed amendments to A-Eng. HB 3215.

There were no objections and Chairman Thorne declared the amendments ADOPTED. Senators Hanlon and B. Roberts were excused.

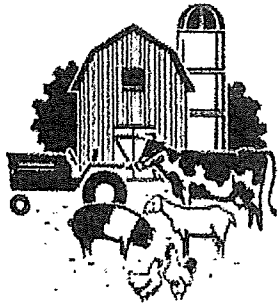

MOTION: Chairman Thorne moved that A-Eng. HB 3215, as amended, be sent to the Floor with a DO PASS recommendation.

The clerk called the roll with Senators Hannon, Jernstedt, Powell, Trow and Chairman Thorne voting AYE. Senators Hanlon and B. Roberts were excused. Chairman Thorne declared the motion CARRIED.

Senator Hannon will lead discussion on the Floor.

A-Eng. SB 126 - Relating to corporations

Chairman Thorne advised the committee they have before them what appears to be a new bill. The measure summary reads "Directs Committee on Trade and Economic Development to conduct comprehensive review of farming in Oregon to determine extent and impact of corporate involvement in agriculture; provides for report to Fifty-ninth Legislative Assembly with recommendations; provides for citizen advisory committee." He read the resolution. He stated he is proposing this as a resolution which will firm up what was agreed upon by the leadership as a replacement for SB 126 which is now tabled in this committee. This is not designed to determine the fate of the resolution which we will take

RE: ODFW Proposed Rules that Define "Derby" as a Manner of "Take"

Oregon Fish and Wildlife Commission:

The Coos-Curry County Farm Bureau (CCFB) is an organization that includes a large membership of livestock producers in both Coos and Curry Counties. The CCFB wants to thank you for the opportunity to provide comment on the proposed rules that define "derby" as a manner of "take" which will prohibit taking unprotected mammals native to Oregon as part of a derby.

The administrative rules being proposed to the Commission are outside the scope of authority delegated by the Oregon Legislature. The rules would give this Commission authority over the individual thoughts and motivation by defining a "derby" as a "manner of take". Contest structures in and of themselves do not kill animals; they are very clearly NOT a "manner of take". The weapon a participant uses is the "manner of take", and that is what the Commission has authority over. The Commission does not have authority to regulate times, places, and amounts regarding predatory animals, and certainly the Commission does not possess the authority to regulate a person's intent to legally take a predatory animal.

Additionally, the Oregon Department of Fish and Wildlife did not do an adequate fiscal and economic impact statement related to these proposed rules, as required by law. These rules restrict rural communities from assembling in a social context to combat a real threat and mitigate the consequences of predatory animals on livestock operations and homeowner's pets, chickens, etc. The rule specifically is targeted at coyote management and their populations can reach unmanageable levels in very short times. Thus, that population growth relates to real loss of calves, lambs, and sheep to ranchers. Individual ranchers and property owners cannot manage such predator population growth on their own.

The State also continues to cut funding for predatory animal management and does not compensate rancher for their livestock losses due to depredation.

CCFB requests the Commission **DO NOT ADOPT** the proposed rules because it is outside of the Commission's authority to regulate our member's thoughts and a "derby" is not a manner of "take".

Respectfully,

Mark VanCamp, President

Salem, OR 97302

RE: Proposed Rulemaking - Derby Prohibition for Taking Unprotected Mammals

Dear Chair Wahl, Vice Chair Zarnowitz, Commissioners and Director Melcher,

On behalf of the Humane Society of the United States, Animal Legal Defense Fund, Animal Welfare Institute, Bitterbrush Broads and Bros Leadership Team, Cascadia Wildlands, Center for Biological Diversity, Endangered Species Coalition, Great Old Broads for Wilderness, Humane Society Veterinary Medical Association, Humane Voters Oregon, Northeast Oregon Ecosystems, Oregon Wild, Predator Defense, Project Coyote, Think Wild, Western Watersheds Project, and Wildlife Land Trust, we are writing regarding the proposed rule to prohibit the taking of unprotected mammals as part of a derby. Last year, we petitioned the Oregon Fish and Wildlife Commission (Commission) to adopt a rule prohibiting coyote killing contests in Oregon. While that petition was denied at the December 2022 meeting, we are grateful that the Commission directed ODFW staff to develop a rule to prohibit killing contests. These events are wasteful, unethical, and incompatible with Oregon's values of sportsmanship, good stewardship, and respect for wildlife. We support the Commission's efforts and share your goal of creating a strong, effective prohibition that includes all unprotected mammals and is consistent with the Commission's authority and Oregon law.

In this spirit, we wish to convey a serious concern with one component of the proposed rule that, if left unaddressed, produces unnecessary ambiguity and threatens to create a loophole that would allow killing contests to continue virtually unabated. As presently drafted, the proposed rule specifies that it "shall not apply to deny the right of any person to control predatory animals as provided in ORS 610.105." Notably, it does not provide any further language to clarify the circumstances where this exception would apply. We are concerned that, absent any such provision, this exception will be interpreted to allow killing contests held on private land – such as the annual Harney County Coyote Classic, Oregon's largest killing contest – to continue without limitation under the bad faith pretext of predatory animal control. Moreover, the draft regulation's lack of clarity will undoubtedly prove confusing to the public, requiring subsequent guidance or regulatory amendments to address.

We agree with the Commission that Oregon law requires that this regulation be crafted to avoid conflict with ORS 610.105.¹ But it is possible – and imperative – to incorporate guardrails into the rule that would provide clarity and prevent abuse without running afoul of that statute. Importantly,

¹ See ORS 610.060 ("Nothing in the wildlife laws is intended to deny the right of any person to control predatory animals as provided in ORS 610.105").

ORS 610.105 is not a blanket authorization for individuals to kill animals on private property by any means, under any circumstances. Rather, it permits good faith efforts to control infestations of predatory animals – defined by statute and Commission regulation as coyotes and other animals “that are or may be destructive to agricultural crops, products, and activities”² – carried out by landowners or their agents:

Any person owning, leasing, occupying, possessing or having charge of or dominion over any land, place, building, structure, wharf, pier or dock *which is infested with ground squirrels and other noxious rodents or predatory animals*, as soon as their presence comes to the knowledge of the person, *may, or the agent of the person may*, proceed immediately and continue *in good faith* to control them by poisoning, trapping or other appropriate and effective means.³

We strongly urge the Commission to amend the proposed rule to clarify and ensure that only good faith predator control efforts covered by ORS 610.105 are exempted. Specifically, we suggest amendments that would establish the following limitations, which are drawn from the text of ORS 610.105 itself:

- The exemption should apply only to efforts to control an infestation of predatory animals on land used for agricultural production, where they present a threat of destruction of crops or other agricultural activities.
- The exemption should apply only to predator control efforts carried out by the owner, occupant, or lessee of the land or their agent. Following the Department’s regulatory definition at OAR 635-435-0005(1), only businesses or individuals who are paid a fee by the property owner or occupant for their services should be considered “agents” covered by the exception.
- If the control efforts are carried out by a property owner or occupant’s agent, then written documentation should exist of a bona fide agency relationship that meets the standards applied by Oregon courts.⁴ This should include acknowledgment that the agent is acting under the principal’s control and on the principal’s behalf for the purpose of controlling an infestation of predatory animals, and that the principal may be held liable for the acts or omissions of the agent.

² ORS 610.002; OAR 635-050-0050(8).

³ ORS 610.105 (emphasis added).

⁴ Oregon applies a common law definition of agency, under which the elements of an agency relationship are (1) the agent is subject to the principal’s control; and (2) the agent must “act on behalf” of the principal. Restatement (Third) of Agency § 1.01. The Oregon Supreme Court defines agency as “the relationship which results from the manifestation of consent by one person to another that the other shall act on behalf and subject to his control, and consent by the other so to act. . . [A]n agency relationship exists only if there has been a manifestation by the principal to the agent that the agent may act on his account, and consent by the agent so to act.” *Hampton Tree Farms, Inc. v. Jewett*, 892 P.2d 683, 694 (Or. 1995); *quoting Ruddy v. Ore. Auto. Credit Corp.*, 174 P.2d 603 (Or. 1946). Merely contracting to provide services does not suffice to create an agency relationship, rather “[t]he power to give interim instructions distinguishes principals in agency relationships from those who contract to receive services provided by persons who are not agents.” *Vaughn v. First Transit, Inc.*, 206 P.3d 181, 186 (Or. 2009); *see also* Restatement (Third) of Agency at § 1, comment f (2006).

- The exemption should only apply to *good faith* agricultural predator control efforts – i.e. not where predator control is used as a pretext to hold a recreational killing contest. To ensure that only good faith predator control efforts are exempted, we would encourage the Commission to consider instituting a reasonable limit, based on standard wildlife damage control practices, on the number of agents that may conduct predator control on a property at one time.

A version of the proposed OAR 635-050-0300 that reflects these amendments is included below.

635-050-0300

Derby Prohibition

(1) It is unlawful to organize, sponsor, conduct or participate in a derby that has the objective of killing unprotected mammals native to Oregon.

(2) This rule shall not apply to deny the right of any person to control predatory animals in good faith as provided in ORS 610.105, provided that:

(a) The control is carried out on land used for agricultural purposes and where an infestation of targeted animals are or may be destructive to agricultural crops, products, and activities occurring on the land;

(b) The control is carried out by the person owning, leasing, occupying, possessing, or having dominion over the land, or the person's agent.

(i) For the purposes of this subsection, the definition of "agent" provided in OAR 635-435-0005 shall apply.

(ii) If such control is carried out by a person's agent, both the agent and the principal must retain written evidence of the agency relationship, including acknowledgments that (1) the agent is under the principal's control, (2) the agent is acting on the principal's behalf for the purpose of controlling an infestation of predatory animals on the land, and (3) the principal may be liable for the acts and omissions of the agent.

Incorporating these changes would curb the serious possibility that the existing exception swallows the rule by allowing killing contests that do not meet the requirements of ORS 610.105 to continue on private land. It would also provide much-needed clarity to the public about the activities that qualify for the exception. Importantly, it would not conflict with ORS 610.105 because it only imposes limitations that are present in the statute itself.

We encourage you to amend the proposed rule as detailed above because we are committed to working with the Commission and Oregon Department of Fish and Wildlife to establish an effective and defensible prohibition on wildlife killing contests in Oregon. We would greatly appreciate the opportunity to discuss these suggested amendments and the Commission's views on the impact and enforcement of the proposed exception in advance of the September 15 hearing.

Sincerely,

Kelly Peterson
Oregon Senior State Director

Subject: Hunting game

Please remove all the hunting games.

Those are animal abuse.

I don't understand why we have to hunt precious wildlife animals lives for human pleasure.

These are not healthy.

I have not known this kind of game is allowed until I was searching for donations for wildlife. I thought you guys are supposed to protect and preserve wild animals.

I'm so devastated and sad that these are existing.

Please be the animal's voice instead of hurting animals.

Sincerely,

BORISCH Roxann B * ODFW

Dear Oregon Department of Fish and Wildlife commissioners,

As an Oregon resident, I care deeply about preventing cruelty to animals and supporting environmental protection efforts.

I am aware that Oregon is considering a ban on coyote killing contests, cruel and gruesome events in which competitors kill as many coyotes as possible during a specified time period for cash and other prizes.

I strongly support this effort, and I hope that you will accept the proposed petition to ban coyote killing contests.

By joining eight other U.S. states that have already banned these inhumane events, Oregon will continue to be a leader in animal and environmental protection.

Thank you for your consideration.

Sincerely,

Dora Workman

Dear Commission Members,

I'm writing in opposition to the rule making to prohibit coyote hunting contests. Oregon has an overpopulation of coyotes that are having a negative impact on big game populations, livestock, and pets. Contests that emphasize the harvest of coyotes bring attention to the coyotes over population and promotes their harvest. If groups and communities see benefits of these contests the commission should be supporting them not trying to ban them.

Furthermore, the commission has no authority to ban these contests. I find it troubling that the commission whose mission is to protect and enhance Oregon's fish and wildlife is working to reduce predator hunting opportunities that would benefit wildlife.

Sincerely,

Michael Lorenzen

There is studies done on coyote hunting helping antelope numbers at the Hart Mountain refuge. The study was done by George Keister.

The game commission members need to read this study before going off half cocked.

These contests help keep the coyote numbers down maybe 1/2 percent of the statewide population.

The study shows that about 30 percent of the coyotes in a small area are vulnerable to calling. This is the main technique used in these contests.

If you proceed with making it illegal for these contests it will become another debacle like sending the hound hunting cougars to a public vote.

Allow your biologists to speak at the commission meetings not your district managers but the field biologists. This would be a step in the right direction.

The hunters in this state are getting very tired of the piss poor game management by ODF&W and the stupidity of the governor appointed commissioners.

Thank You

Douglas McCauley

59.75 year resident of Eastern Oregon

ODFW Commission,

just writing in in regards to the commission, possibly banning coyote hunting derbies in the state of Oregon. Everything I know about these they are a big help to rural Oregon. The harvest of coyotes always helps or fawn survival rate. I'm sure you can look back at studies have been done on Hart Mountain itself on the percentage of Antelope fawns that get killed by coyotes is astonishing, besides it's helping out our hunting future. It also helps our local ranchers during the calving season, as it keeps our coyotes to a manageable number. Oregon Department of Fish and wildlife is paid for by hunters dollars through the purchase of sporting good stuff , Hunting licenses, etc. Robertson Pittman act. so taking away more of our rights seems like a slap in the face to the people that pay to keep a Oregon Department Fish an Wildlife working. I would hope the Commission is supposed to work on managing our game and working for the hunters, not some group of Non hunting public that claim they give help and \$\$ support to the game in Oregon . These anti hunting groups give no support to the Oregon Department Fish and Wildlife When do they ever come and help manage our game in the state of Oregon. Plant bitter brush, Bird boxes ,guzzler repair etc all done by Hunters. all they do is try to limit what the true sportsman in Oregon can do. Limiting coyote hunting derbies it's just another way of slapping us sportsman in the face. Taking away us having something fun that we like to do with our family and friends.

Dan Hamrick

To whom it may concern,

I feel the coyote ban is a view of the animal rights people and they have no right in managing the resources of the people who put money into to wildlife to manage it. They do not understand the predator problem we face since the banning of dogs for cougar and bear, the deer and elk and smaller game animals need a break from the constant predation on them. Please leave the contest and all predator hunting alone and please back the millions of sportsman who pay your salaries and invest millions to utilize the great out of doors

Sincerely Justin Zukas

I'm a hunter, I support a ban on making a game of killing things. Especially if they aren't going to be eaten by the people shooting them.

Most real hunters would agree, but the most vocal ones are probably emailing you otherwise.

To whom it may concern:

I'm writing this email to encourage the ODFW commission to not move forward on any plans to ban coyote hunting competitions in our state. These competitions are a useful and effective management tool in controlling a predator that has infiltrated every town in our state. Ranchers, as well as people who live in major cities, benefit from these animals being controlled in this manner. Not only does it bring in money to ODFW from hunters out of state that buy non-resident licenses, the small communities where these contests are often held benefit greatly from the revenue they bring.

I would rather these predators be controlled in a way that brings our state revenue, rather than using a helicopter, or government trapper. I urge you to vote no on any proposal. Thank you

Robert Johlke

Subject: coyotes

Is it Oregon's idea of living with wildlife; specifically coyotes, to allow mass killing contests, and/ or hunts?

I am one who knows the loss of farm animals due to coyotes, but this has been going on since the Americas were settled. Nature has its own way of maintaining wildlife populations. It's so easy for someone to say oh hey these coyotes would starve anyway. Or, we are killing them to better the populations and save other native wildlife. Not True! These people killing coyotes are killing some of the healthiest animals not the ill and diseased. This is Horrible.

Equally disturbing is seeing the photos of men who dangle these dead "dogs" with pride. What does Oregon really want to teach their young children? If there is no other reason than to get thrills in competing and killing...well let's just say my pride in my birth state being Oregon has vanished.

Maybe more resources should go to the illegal drug and trafficking trade that pollute Oregon streams and likely contribute to the disappearances of hikers.

Oregon has become a Southern California. No wonder the east wants to be part of Idaho. I don't blame them. Oregon, a state that use to be known for its casual slow-paced slow-talking, no-worries life is changing gross influences.

I hope any meetings and legislation consideration is immediate to such inhumane practices.

I have a neighbor who traps everything she can. Skunks, cats, raccoons, squirrels... We live near a greenbelt, she chose to move to her location from Oregon of all places. She gives the animals to the county ounce trapped. The county shoots the skunks. She disgusts me. The county is worse for allowing her continual rid of our communities wildlife.

The story is meant to demonstrate that government (Federal, State, County, City) Must set the boundaries for citizens because many citizens are total idiots.

Who was the person who Started Killing Contests of Coyotes in Oregon? Why wasn't he/she stopped right at the onset.

Please forward this to your Assembly and Senate offices, and Governor. There are Many others who can't believe this stuff coming out of Oregon, but you are just not hearing from them. Including from an avid deer hunter from Louisiana, who also thinks such contests are normally run by cowards.

Thank you for Reading my Vent.

Heidi Maule.

Dear Oregon Fish and Wildlife Commission,

As an Oregonian who cares deeply about animals and our natural ecosystem, I urge you to put an end to wildlife killing contests in our state. Wildlife killing contests are barbaric and cruel events where participants compete to kill wild animals for cash and prizes.

These contests often target native carnivores like coyotes, bobcats and foxes, which are important species that play a critical role in healthy ecosystems. These events do not serve any legitimate wildlife management purpose and simply make a game of killing animals.

Wildlife killing contests are a violation of the state's solemn duty to protect wildlife for the benefit of all Oregonians. A 2019 poll by the respected, bipartisan Remington Research Group found that a strong majority of Oregonians support public policy to ban wildlife killing contests.

Eight states, including five in the west—Washington, California, Colorado, New Mexico and Arizona—as well as Maryland, Vermont and Massachusetts have banned wildlife killing contests. Five of these states did so through their state wildlife commissions. It's time for Oregon to do the same.

Thank you for your consideration.

[You don't often get email from user@votervoice.net. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification>]

Dear Rules Coordinator Borisch,

The administrative rules being proposed to you are outside the scope of authority delegated to you by the Oregon Legislature. The rules would give this Commission authority over my individual thoughts and motivation- by defining a "derby" as a manner of take. Contest structures in and of themselves to do not kill animals, they are very clearly NOT a manner of take. The weapon a participant uses is the manner of take, and that is what the Commission has authority over. The Commission does not have authority to regulate the times, places, and amounts regarding predatory animals, and certainly the Commission does not possess the authority to regulate a person's intent to legally take a predatory animal.

Additionally, the Oregon Department of Fish and Wildlife did not do an adequate fiscal and economic impact statement related to these proposed rules, as required by law. These rules restrict rural communities from assembling in a social context to combat a real threat and mitigate the consequences of predatory animals on their livestock. Specifically, this rule is targeted at coyote management, and their populations can reach unmanageable levels in very short times, and that unsustainable population growth relates to a real loss of calves, lambs and sheep to ranchers. One rancher cannot realistically manage coyote populations that span shared grazing lands. The state continues to cut funding for predatory animal management and does not compensate ranchers for livestock loss due to coyote depredation.

I respectfully request the Commission do not adopt the proposed rules because it is outside of the Commission's authority to regulate my thoughts and a derby is not a manner of "take."

Sincerely,

Diana olson

Dear Rules Coordinator Borisch,

I have participated in a Seniors Fishing Derby at Walton Lake for many years now. The goal of a Derby is to encourage a fun one-time "competition" between fishermen, with awards from longest caught, most cumulative length (and weight), fastest to reach their limit, and much more. It is an enjoyable time for seniors, all within the regular season fishing parameters of ODFW.

The administrative rules being proposed to you are outside the scope of authority delegated to you by the Oregon Legislature. The rules would give this Commission authority over my individual thoughts and motivation- by defining a "derby" as a manner of take. Contest structures in and of themselves to do not kill animals, they are very clearly NOT a manner of take. The weapon a participant uses is the manner of take, and that is what the Commission has authority over. The Commission does not have authority to regulate the times, places, and amounts regarding predatory animals, and certainly the Commission does not possess the authority to regulate a person's intent to legally take a predatory animal.

Additionally, the Oregon Department of Fish and Wildlife did not do an adequate fiscal and economic impact statement related to these proposed rules, as required by law. These rules restrict rural communities from assembling in a social context to combat a real threat and mitigate the consequences of predatory animals on their livestock. Specifically, this rule is targeted at coyote management, and their populations can reach unmanageable levels in very short times, and that unsustainable population growth relates to a real loss of calves, lambs and sheep to ranchers. One rancher cannot realistically manage coyote populations that span shared grazing lands. The state continues to cut funding for predatory animal management and does not compensate ranchers for livestock loss due to coyote and wolf depredation.

I respectfully request the Commission do not adopt the proposed rules because it is outside of the Commission's authority to regulate my thoughts and a derby is not a manner of "take."

Sincerely,

Dear Rules Coordinator Borisch,

These rule changes are clearly outside the authority of ODFW. ODA has authority over the take of predatory animals. This is a terrible idea and should be stopped.

The administrative rules being proposed to you are outside the scope of authority delegated to you by the Oregon Legislature. Sent: Monday, August 28, 2023 4:12 PM
To: BORISCH Roxann B * ODFW
Subject: Oppose New Administrative Rules that Prohibit Taking as Part of a Derby

Follow Up Flag: Follow up
Flag Status: Flagged

Dear Rules Coordinator Borisch,

I would like to oppose the new administrative rules that prohibit taking as a part of a derby. As a cattle rancher, these derbys, usually scheduled prior to our calving season are of vital importance to our operation. During calving season our livestock is at its most vulnerable stage. Baby calves are too young to fend off predators or run from them if their mothers have left them to go for water or feed, also laboring cows can fall victim to coyotes preying on them or their calves being born. Thinning out the coyotes that prey on our livestock is very beneficial for the welfare of our livestock. Wildlife also benefits from fewer coyotes. Like our cattle, sage grouse, geese, deer and antelope are nesting and giving birth in the spring and their birth rates are directly tied to predation. These derbys also save the state predation programs from having to spend money on predator control. Another benefit of the derby's is the economic impact it provides for small rural communities in one of the slowest times of the year by bringing in hunters who fill up their gas tanks, stay in local lodging, and eat all their meals in our local establishments. Even if these administrative rules fell within the scope of the commission's authority, they are harmful to wildlife, livestock, and rural economies, and a bad idea.

The administrative rules being proposed to you are outside the scope of authority delegated to you by the Oregon Legislature. The rules would give this Commission authority over my individual thoughts and motivation- by defining a "derby" as a manner of take. Contest structures in and of themselves to do not kill animals, they are very clearly NOT a manner of take. Subject: Oppose New Administrative Rules that Prohibit Taking as Part of a Derby

Dear Rules Coordinator Borisch,

Really, please. Let's not get into a dictatorship determining rules that are already covered by ODA. If anything let's add elk to the list of predatory animals (they wreck and damage our crops) and have a derby to eliminate some of them. Better yet let's get them harvested as food for the jails and prisons. Free meat - not counting the cost for slaughter and processing.

The administrative rules being proposed to you are outside the scope of authority delegated to you by the Oregon Legislature. The rules would give this Commission authority over my individual thoughts and motivation- by defining a "derby" as a manner of take. Sent: Monday, August 14, 2023 8:16 AM
To: BORISCH Roxann B * ODFW
Subject: Oppose New Administrative Rules that Prohibit Taking as Part of a Derby

Dear Rules Coordinator Borisch,

I am a rancher in Central Oregon and I oppose the new rules prohibiting the take of predators by derby, defining it as a manner of take. I disagree with the definition and with the assumption made about thoughts and reasoning of persons participating in such.

The administrative rules being proposed are outside the scope of authority delegated to you by the Oregon Legislature. The rules would give this Commission authority over my individual thoughts and motivation- by defining a "derby" as a manner of take. Contest structures in and of themselves do not kill animals, they are very clearly NOT a manner of take. The weapon a participant uses is the manner of take, and that is what the Commission has authority over. The Commission does not have authority to regulate the times, places, and amounts regarding predatory animals, and certainly the Commission does not possess the authority to regulate a person's intent to legally take a predatory animal.

Additionally, the Oregon Department of Fish and Wildlife did not do an adequate fiscal and economic impact statement related to these proposed rules, as required by law. These rules restrict rural communities from assembling in a social context to combat a real threat and mitigate the consequences of predatory animals on their livestock. Specifically, this rule is targeted at coyote management, and their populations can reach unmanageable levels in very short times, and that unsustainable population growth relates to a real loss of calves, lambs and sheep to ranchers. One rancher cannot realistically manage coyote populations that span shared grazing lands. The state continues to cut funding for predatory animal management and does not compensate ranchers for livestock loss due to coyote depredation.

I respectfully request the Commission do not adopt the proposed rules because it is outside of the Commission's authority to regulate my thoughts and a derby is not a manner of "take."
