

MISSION

The Oregon Department of Fish and Wildlife's mission is to protect and enhance Oregon's fish and wildlife and their habitats for use and enjoyment by present and future generations.

ODFW Principles

- Fiscal integrity
- Promote workforce enhancement
- Effective relationships based on trust and confidence
- Work as a team to accomplish our mission
- Proactive and solution-based fish and wildlife management based on sound science

Working at ODFW

Being an employee of the Oregon Department of Fish and Wildlife means being a part of an organization whose work touches the life of every Oregonian.

ODFW's statutory mission is to manage Oregon's fish and wildlife resources to prevent serious depletion of any indigenous species, and to provide the optimum economic, commercial, recreational and aesthetic benefits for present and future generations of Oregonians. When you join ODFW, you become a key partner in making that mission successful.

Whether we are improving habitat for fish in coastal rivers, restoring bighorn sheep to their historic range in northeast Oregon, protecting wetlands for migratory birds, or managing hatcheries in balance with sustainable production of naturally produced native fish, our work makes it possible for Oregonians everywhere to enjoy the bountiful natural fish and wildlife resources of this state. We invite you to join us in this meaningful work.

ODFW

- Is the fifth largest state fish and wildlife agency in the United States, with 1,400 employees
- Manages more than 260,000 acres of land
- Operates 34 fish hatcheries
- Manages 12 wildlife areas
- Operates 11 research offices
- Contains 10 watershed districts
- Is governed by a seven-member Commission appointed by the Governor
